With the final RTR one can note in the letters the bindings the Jewish enemy has been cursing Gentiles with.

The ancient Hebrew script shows the Jews took the letters from the ancient Gentiles and literally reversed them. They even turned the letters around backwards in the Jewish corruption of them in their ancient alphabet which is about reversal. They even changed the direction of reading them.

In Kabala the Hebrew alphabet is shown as the 22 pathways on their tree which relates to the 33 pathways of the soul. The major nadi's in the spine and how they connect into the chakra's. This about binding the entire Gentile soul with their Alphabet.

The ninth letter when reversed in the RTR has Set within this. Set in ancient Egyptian tradition is the God that purifies and opens the soul to the breath of life the flow of the prana. In Hinduism the word "nadi" is Nad which means flow and the I represents Shakti or energy thus nadi is the follow of pranic or spiritual energy thought the body it also relates to sound as energy is vibration. Prana is liken to breath the breath of life in Hinduism the Na relates to the element of air in Sanskrit.

Originally Set baptises Osiris in the Nile river this is the symbol in the Vedic world of the seven rivers opening up to the cosmic ocean. The rising of the serpent that opens all the chakra's and brings about the reborn state of the Light Body. Set destroys the symbol of the body in the dormant spiritual state the demiurge state and brings about enlightenment and immortality. A lot of nonsense has been written by Christians about Set as they seek to impose their Jewish mind lie of Christianity onto another culture. Set was openly worshipped as an good and important God all the way into the Roman Empire till Christianity destroyed everything. Set was also shown in symbols that relate to the kundalini energy purifying the individual being thus transforming them into the Light Body and super consciousness state. The symbol of this state occurring in Vedic cosmology is the lighting bolt of Indra. This is Set's power as well the energy that connects the root chakra to the crown which is the rising of the serpent power and transmutation of the elements of the soul.

This ninth letter of the Jewish enemy is about binding the Gentile soul at the root chakra and keeping Gentiles from being able to ascend the serpent and become spiritually reborn into the Light Body.

The reverisal of the A letter the Aleph is Phala which is another spelling of Phallos as well in the ancient Gentile language which relates to the breath of life in the form of the Solar Chakra. The Phallos or OM Phallos the symbol of Dionysus is the symbol of the solar chakra. This is the breath of life in the sense this chakra rules transfroming prana into vital life energy and sending it to the chakra's. The naval chakra is the King of the Gods as it rules the other Gods or chakra's

as they all connect to this point. This is the 666 and the ancient capstone.

This enemy letter is designed to curse and bind the solar chakra of Gentiles. The major chakra that is responsible for transforming the soul by the Magnum Opus into the immortal state of the Light Body. Its to cut off the person from the flow of life force in general leaving them in weakened state. This chakra also connects to its pair the Moon chakra which is the higher consciousness centers. To empower the sun is to activate this point as well. So its also about binding the third eye as well. By binding this chakra they also deprive all the other chakras of energy. The Aleph letter in Kabala is shown to be relating to the solar chakra for this reason. The symbol of this is the binding of the eight spoked wheel in Kabala. For reasons stated. The eight spoked wheel is the ancient symbol of all the chakra's connecting at the solar chakra.

These are just two examples out of all the Jewish letters and note how serious this is with just two, which is just these two mentioned.... What do you think all of them together are doing. Working to curse and destroy the Gentiles at the soul.

Doing the Final RTR is opening the pathway for you to be able to ascend the serpent and work towards the Magnum Opus. This Final RTR needs to be done daily as its also a form of power meditation as well.

The more you do the RTR the easier it gets to pronounce.
